A Message from the Long Island Learning Institute for Educators, LLC

Educators today are under tremendous pressure. Federal, state, and local standards, as well as school report cards and media commentary have become critical components in the school community. The Long Island Learning Institute for Educators, LLC is an organization that was founded by practicing teachers who face the same 21st century challenges as those who enroll in our courses. LILIE was formed to be an educator's tool to meet the challenges of ensuring student success. LILIE courses are designed to complement professional development plans, district strategic plans, and the current educational issues of all involved in the educating of our youth. We pride ourselves in providing meaningful courses that are realistically applicable and beneficial in the classroom. It is our goal that each teacher who participates in our classes, exits with practical knowledge and new teaching insights and/or methods that can be successfully applied to his or her classroom.

electronically at
www.lilieonline.com

Kindly visit our secure site online at www.lilieonline.com to register for all courses listed in this catalog as well as find additional information regarding the various courses we offer.

Registrations require a \$50.00 non-refundable, but transferable deposit. Transferability is voided if enrollee is dropped or chooses to drop due to failure to meet course requirements.

Register at www.lilieonline.com
In-service Courses are \$270.00
Graduate Courses are \$595.00

Information regarding coaching course costs can be found on page 23.

Certificate of Completion

Educators are required to complete a log attesting to a minimum of 45 hours of course work. This log will be evaluated and approved in order for a teacher/enrollee to earn a certificate of completion.

Attendance Policy

100% Attendance (internet participation) is required in order to receive a certificate of completion. No exceptions will be made.

Course Loads

Please note that all courses require ample time, attention and commitment and it is therefore recommended that you plan your course schedule accordingly. To provide teachers with the benefits of such rigorous and meaningful coursework, L.I.L.I.E., LLC recommends that no more than 2 courses be taken in any one month while enrollees are working full time during the academic year. In addition, it is advised that teachers consult with their district's policies regarding such matters.

Registrants failure to comply with minimum requirements are automatically withdrawn from course and may not be notified nor refunded.

Online Courses

Online courses are 3 credit/45 hours and will be conducted via the LILLIE website at www.lillieonline.com. Courses will run for one month, and teachers will be required to log into their class throughout each week. Questions or comments should be e-mailed to questions@lillieonline.com. After registering/enrolling online, participants will receive an automatic reply from LILLIE confirming registration, providing directions for accessing course(s) and alike.

21st Century Classroom Technologies

Course #: EDPD 634 Instructor: Liz Scott-Pothier
GRAD THROUGH MANHATTAN UNIVERSITY OR IN-SERVICE

Technology is not only the machine itself but is the whole set of relationships between human beings, utensils and fields of knowledge. “Too many view technology as a silver bullet to the challenges they face. It’s sometimes assumed, consciously or not, that the mere presence of digital tools will improve education. There’s a relationship between technology, content, and pedagogy, and the purposeful blending of them is key.” (Schoology Exchange)

21st Century Technology Instruction will explore the changing dynamics of new technologies and next generation education (Learning 2.0, 3.0 and 4.0). The Next Generation Learning Standards and the increase of “user generated content” require students to hone their critical thinking skills of collaboration, creativity, research and technological skills as well as embrace their role of potential (global) change agents. Instructional strategies will include (but are not limited to) topics such as: teched equity, student voice, the impact and use of social media, podcasts, blogging, electronic white boards, productivity applications, video-on-demand, internet use and websites as well as other aspects of the digital media that can be used to level the playing field and foster growth of all students with a focus on underrepresented and marginalized student populations in school-based, virtual or hybrid learning environments.

April 1st - 28th, 2025

Academic Vocabulary Infusion

Course #: EDPD 618 Instructor: Jennifer DeCollibus
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

Standards four, five, and six in Vocabulary Acquisition and Use in the Next Generation Learning Standards focus on academic vocabulary and the needs for students to consistently build upon their vocabulary to access complex texts. This course will explore information on language acquisition and the importance of academic vocabulary in all content area classrooms. It will also provide numerous vocabulary activities and opportunities to develop vocabulary instruction that can be implemented and evaluated. Research shows that students of color, multilingual students, and students with disabilities often have gaps in their personal vocabularies. This course provides support for educators to design and implement vocabulary instruction that embraces diversity while adhering to NYS Standards and curriculum. Educators will be prepared to encourage their students to participate in a brave learning environment where proper use of terminology, acknowledgement of diverse words, and teacher modeling will result in greater equity in their learning experiences.

March 1st - 28th, 2025

AI for Inclusive Education:

Empowering Equity, Diversity and Inclusion

Course #: EDUU 9956 Instructor: Tom Fabian
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

NEW!

“AI for Inclusive Education: Empowering Equity, Diversity, and Inclusion” is designed to equip educators with the knowledge, skills, and strategies necessary to effectively integrate Artificial Intelligence (AI) technologies into their teaching practices while fostering an inclusive and equitable learning environment.

Participants will explore the dynamic intersection of AI and education using real-world examples of AI enhanced learning experiences and applications. They will gain insights into the key concepts of Equity, Diversity, and Inclusion (EDI) and learn about the importance of EDI in addressing biases and promoting fairness within AI including how AI can tailor content to individual students’ needs and diverse learning styles, create unbiased grading assessment methods, mitigate biases, make education more accessible for culturally underrepresented groups, and design AI driven curriculum materials that promote EDI.

October 1st - 28th, 2024

May 1st - 28th, 2025

September 1st - 28th, 2025

September 23rd - Oct. 20th, 2025 - No Graduate

Affirming Student Identity: Curators of Content

Course #: EDUU 9950 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

Affirming student identity refers to the practice of recognizing, valuing, and supporting the diverse identities of our students, including but not limited to race, ethnicity, gender, sexual orientation and ability. We implement this through inclusive curriculum, classroom practices, and interactions. Additionally, we need to provide authentic resources that support marginalized groups and fosters a positive sense of self-worth among all students. We need to empower students to take an active role in selecting, organizing, and presenting the content they are learning. By providing students the opportunity to curate their own learning experiences they can develop critical thinking, problem-solving, and strong communication skills. We can implement this in a variety of ways, such as project-based learning, student led discussions, and diverse student curated resources.

December 1st - 28th, 2024

May 1st- 28th, 2025

August 1st - 28th, 2025

Amplifying Cultural Competency & Student Voice

Course #: EDPD 669
Instructor: Catherine Carella-Dean
GRAD THROUGH MANHATTAN UNIVERSITY OR IN-SERVICE

Student voice refers to the expression of ideas, perspectives, values, and beliefs of our learners. In this course, educators will learn how to engage their students in self-expression and how to amplify their students' voices. Participants will define and analyze the many facets of student voice and they will learn how to create a variety of opportunities for their students to be heard. Throughout the course, culturally responsive teaching will be discussed as it pertains to helping students develop and promote their own unique voice. Participants will create and share lesson plans that are realistic and practical for immediate use.

May 1st - 28th, 2025

Anxiety Disorders & Students Today: What Teachers Can Do

Course #: EDNU 9654 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Anxiety Disorders & Students Today will focus on the biology of anxiety disorders and how they affect the brain. The course will educate teachers and staff on the formation, symptoms, and impact of anxiety disorders, as well as current treatments and therapies. Through culturally responsive practices, participants will learn strategies to support students with anxiety disorders and improve success for all students. The course will study the most commonly seen disorder types in our students today. The role of the school in supporting students with anxiety disorders will also be discussed. Finally, the course will cover managing anxiety disorders in the classroom, including immediate care, preventative measures, and curriculum modification.

November 1st - 28th, 2024

April 1st - 28th, 2025

September 1st - September 28th, 2025

September 23rd - Oct. 20th, 2025- No Graduate

Asset-Based Instruction to Empower Students

Course #: EDCU 9106 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

This course will focus on how we can empower all students to be successful both academically and socially within the learning community and what we can do as a teacher and facilitator to foster a brave learning environment that supports students to utilize their own assets, knowledge and abilities to take a role in their own learning and success. Further, we will explore ways we can encourage families to support students and integrate their own assets and perspectives into the learning environment and to create a stronger home, school and community connection. We will see a shift of mindset in focusing on student struggle but rather their personal strengths, abilities and knowledge. Additionally, specific strategies teachers can incorporate into their classes will be explored as well as methods to support culturally responsive instruction for empowering students to overcome various academic obstacles.

November 1st - 28th, 2024

February 1st - 28th, 2025

February 10th - March 9th, 2025 - No Graduate

Bilingual Education - From Theory to Practice

Course # EDPD 667 Instructor: Kevin Gross
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

This course is designed to prepare bilingual, ESOL, and interested mainstream teachers to successfully work with English Language Learners, in the context of bilingual/ESL programs. It includes the study of the historical, psychological, social, cultural, political, theoretical, and legal foundations of bilingual education programs in the United States. Participants will examine different bilingual program models and will explore and implement effective research-based strategies of instruction in the main content areas. Communication with parents and families, concerning students' academic and social outcomes will be highlighted.

December 1st - 28th, 2024

August 1st - 28th, 2025

Bridging Our Connectivity

Course #: EDTU 9155 Instructor: Edward Storck
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Connections are a bedrock in education. Educators know that meaningful connections can better engage students and motivate them to reach their potential and these ties can and should extend beyond students to their families, the greater community, and beyond. In this course, we will explore how we can create intentional connections to best serve all students, including students that have been historically under served and marginalized. We will collaborate as a think tank to learn what role technology can play in bridging the home-school divide and we will create a turnkey action plan that can enhance existing relationships and build new ones that leverage students' strengths to maximize their learning.

October 1st - 28th, 2024

May 1st - 28th, 2025

August 1st - 28th, 2025

Building Connections in the Post – Pandemic Classroom

Course # EDUU 9064 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

This course will focus on reflecting on changes in students and classrooms post-pandemic and developing skills of independence and addressing social and emotional needs. We will focus on building strong relationships and trust, helping students become aware of their needs as learners and finding their identity and discuss specific activities and interactions that will help students find their purpose and make personal connections with the content, teacher, and diverse learning community. We will also address the social and emotional needs of students and strategies for guiding under served populations in building connections and identifying their needs as learners.

August 1st - 28th, 2025

Building Knowledge and Big Ideas Through Critical Thinking

Course # EDUU 9954 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

In this course, participants will learn to elevate the thinking process to curate knowledge and connect ideas through critical thinking - which includes actively engaging with all types of information, questioning assumptions, evaluating evidence and analyzing arguments to develop a deeper understanding of concepts, ideas, and themselves as learners and individuals. Participants will guide students into approaching information with skepticism, curiosity, and an open mind in seeking to make connections, identify patterns, and draw reasoned conclusions that are inclusive of various perspectives, ideas, and consider various social groups. Building these skills will become evident in students reading and writing as they further develop their ideas. All of these processes and thinking protocols will help participants and the learners in their classroom community to develop a more nuanced and well-informed perspective on various topics, enabling them to make better decisions, develop bigger ideas, increase literacy functions, and use their own knowledge, experiences and curated resources in order to contribute meaningfully along with their peers in open dialogue within the brave learning community.

September 1st - 28th, 2024

September 23rd - Oct. 20th, 2024 - No Graduate

May 1st - 28th, 2025

Building a Positive School Culture

Course # EDAU 9761 Instructor: Cathy Carella-Dean
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

School Culture refers to the values, beliefs, norms, and rituals that make up a school's "persona". This course will examine the specifics of what school culture is and how it impacts student outcomes. Participants will understand the role they have in sustaining or changing school and classroom culture. Additionally, participants will analyze the effects that Positive Behavior Interventions & Supports (PBIS) and Professional Learning Communities (PLC) have in shaping a positive school culture. Participants will create, collaborate on, and share out action plans that will ultimately lead to increased opportunities to move along the continuum of positive school cultures.

February 1st - 28th, 2025

February 10th - March 9th, 2025 - No Graduate

Building Productive and Enduring Educational Partnerships

Course # EDAU 9759
Instructor: Catherine Carella-Dean
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Educational partnerships take form when stakeholders come together for the sake of enhancing the good of the school and for improving student outcomes. Partners include students, educators, parents, community members, and others who have an interest in promoting lifelong learning. This course will examine the specifics of how educators can forge ahead with building productive and enduring partnerships that will serve to benefit their students now and in the future. This course will explore research-based rationales for building partnerships and it will analyze best practices for creating and sustaining bonds with various educational partners. Further, participants will discuss how to appropriately integrate critical consciousness with their students, adopting the mindset, and to have that dialogue within the classroom. Additionally, student grouping, instructional practices, etc., regarding cultural responsiveness will be discussed as well. Participants will learn how to develop strategies and action plans that engage all partners in collaborative efforts that help students achieve their full potential now and in their lives. Participants will create and implement more equitable practices for students in their classrooms, in particular those who have been historically underserved and marginalized. Educators will discuss and analyze research-based, best practices that improve instructional strategies and collaborative approaches to student learning. Educators will examine their underlying personal beliefs, norms, practices, and assumptions, and reflect on how a student's race or culture may have influenced school culture. Educators identify they will implement to meet the needs of their students with a careful eye to how cultural responsiveness works to achieve this.

November 1st - 28th, 2024

Changing Minds: Using Growth Mindset to Encourage Student Development

Course #: EDDU 9506 Instructor: Jennifer DeCollibus
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

The image of a successful person can vary from one individual to the next; however, upon closer inspection those who succeed share a common quality: their mindset. Teachers will examine various ways to positively alter their own lives as a result of mindset, but equally important, how students can benefit from a growth mindset culture in the classroom. It's apparent that we want our students to develop and maintain a growth mindset; however, it's also necessary that we foster an awareness within them that allows them to respectfully question social injustices and determine ways to promote change. This course provides the foundation for understanding mindset, the difference between a fixed and growth mindset, the importance of the brain and how it works, specific ways to foster a growth mindset environment, the role of critical thinking, differentiation and critical consciousness and cultural responsiveness, ways to change mindsets, and strategies that promote a growth mindset. An educator can use this information to continue to develop challenging instruction that is also designed for students to recognize how potential and effort impact the outcome in any life situation.

With the expectation for educators to consistently challenge students, many students are encountering new learning difficulties and experiencing feelings of frustration and failure. Since a growth mindset is the belief that dedication and hard work can produce positive results that lead to success, it is an idea that all educators should learn. Before students can adopt a mindset that is critically conscious, it is useful for them to possess a growth mindset in order to be able to do so. Through understanding course content, self-reflection, and the opportunity to develop lesson plans that promote critical thinking skills, the philosophy of differentiation, participants will complete this course with a new methodology that will become an integral component in their teaching repertoire. Ultimately, participants will learn a new way of thinking that can transform students' learning experiences.

Sept. 1st-28th, 2024 | Sept 23rd-Oct 20th - No Grad.

Classroom as Community: Responsibility of All

Course #: EDUU 9070 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

What defines a community? How do we envision a classroom community to look and sound like? This course will focus on the skills necessary to foster an environment in which both students and teachers display both self-awareness and social awareness - are able to vocalize this and share perspectives. The course will also discuss the needs of having empathy for others, identifying emotions and causes, positive goal setting, responsible decision making, and focusing on personal assets to maintain respectful relationships in a diverse learning community.

September 1st - 28th, 2024

**September 23rd - Oct 20th, 2024 - No Graduate
March 1st - 28th, 2025**

Classroom Strategies of Differentiated Learning

Course #: EDPD 615 Instructor: Jennifer DeCollibus
GRAD THROUGH MANHATTAN UNIVERSITY OR IN-SERVICE

Today's students must have the ability to critically think and learn while engaging in rigorous instruction. Realistically, though, all students cannot meet these demands in the same way. At its core, differentiated instruction is a method that embodies critical thinking, constructivism, and interdisciplinary instruction which are key concepts of the Common Core and Next Generation Learning Standards designed to nurture life-long learners. Students who learn in a differentiated environment are more engaged, interested, and motivated because their personal, academic, and social-emotional needs can be met. This philosophy is particularly effective in addressing the most commonly underserved populations such as students of color, multilingual students, and students with disabilities because the on-going use of assessment drives instruction and enables educators to make instructional choices based on data instead of any personal biases influenced by gender, race, culture, background, social class, politics, or ability.

January 1st - 28th, 2025

Cooperative Learning & Team Structures

Course #: EDPD 601 Instructor: Valerie Fiano
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

This course will examine the basics of cooperative learning focusing on how to integrate this teaching method, how cooperative learning helps students meet the Next Generation Learning Standards, benefiting from a variety of perspectives and viewpoints, all while integrating technology. The benefits are student content mastery, increased intrinsic motivation through extrinsic motivation, and increased accountability and engagement. An analysis of a variety of cooperative learning methods and practices will be explored. In addition, teachers will examine overall student participation and engagement in learning teams versus traditional classroom configurations and determine successful configurations for different content areas and grade levels at meeting academic expectations. Further, participants will discuss how to appropriately integrate critical consciousness with their students and to have that dialogue within the classroom. Additionally, grouping and instructional practices regarding cultural responsiveness will be discussed as well. While working in cooperative groups students will be encouraged to share various perspectives and personal experiences that reflect their personal experiences and cultural identity and social location. Implementation of various strategies will be shared and reflected upon during the course. During each week, there are specific themes to explore and discussion questions to answer that consider multiple perspectives. Students will address the Discussion Questions (DQs) and reflect their answers to the course content and their own instructional practice, but also their classmates' postings and opinions to examine many perceptions of how cooperative learning and learning teams can affect classrooms, pedagogies and student outcomes.

November 1st - 28th, 2024

July 1st - 28th, 2025

Creating Dynamic Learning Experiences in the Diverse Classroom

Course # EDPD 675 Instructor: Kim Turri
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

"Technology is not a magic solution for education. It is an opportunity! An opportunity to shake things up, connect, grow, and create dynamic learning experiences for our students." In this course, you will learn practical strategies to help you move your classroom from static teaching to dynamic learning. Educators will explore why it's time to "Shake Up Learning," what changes can be made in the classroom to support dynamic learning experiences, and how to plan meaningful lessons to meet the needs of diverse learners.

As educators, we are aware that technology is constantly evolving. The digital age demands are transforming the way we live and the way we learn. Students must develop specific cultural awareness, active listening, and empathy skills to thrive in a globally connected environment. This course will take learning beyond the classroom walls to incorporate these essential skills to empower and engage students. Best practices will be explored to help educators implement digital tools to create optimal and equitable learning environments and deliver meaningful, integrated learning experiences for students that provide student agency over time, path, and place.

Learning doesn't have to stop when the bell rings. Education can take on a life of its own! Educators will explore the ways technology can empower and engage students. A strong emphasis will be placed on developing students' "voice and choice" to ensure student agency over learning. Educators will also discover strategies and tools to help students advocate for themselves, make choices, practice self-awareness, and understand themselves as learners.

February 1st - 28th, 2025

Creating A Framework To Promote Student Attention

Course # TBA Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

What does it mean to “pay attention”? Creating a framework to promote student attention requires a multifaceted approach that considers the cognitive, emotional, and environmental factors that affect learning. This can involve incorporating strategies that engage their interest, support focus, and sustain motivation. Environmental factors may include minimizing distractions, seating and lighting options that are conducive to focus, and using technology wisely so as to not overwhelm students with too much stimuli. Additional strategies include having interactive activities and hands on activities, and chunking information to make content manageable to maintain focus. Another important factor to gain attention is making content connect to real life situations, solicit student input and feedback, and use judgement to build curiosity. Cognitive and emotional support of attention and focus include mindfulness practices, encouraging breaks, and building meaningful relationships that create a brave learning environment where students feel valued and heard. Participants will explore and learn a multitude of ways to implement these strategies both instructionally and through cognitive and emotional development practices. Additionally, we will learn to reflect and assess our own attention and how we can assess personal and student attention in order to increase overall student success and motivation to build curiosity and learn.

September 1st -28th, 2025

Cultivating Student Leadership

Course # EDAU 9757
Instructor: Catherine Carella-Dean
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

The principles of student leadership are rooted in the belief that a drive to benefit the greater good lends itself to establish, harness, and achieve a common purpose. Educators are in a unique position to identify and cultivate the leadership qualities in all of their students. This course will give participants the tools to identify the leadership characteristics that their individual students possess to help in developing a culturally responsive student leaders that incorporate the promoting a school climate inclusive of minoritized students, particularly those historically underrepresented and marginalized. This course will impart knowledge about how to design and implement lesson plans and action plans that provide ongoing, structured student leadership opportunities for all as well as how to inspire and steward student leaders into broader community initiatives and activism.

April 1st - 28th, 2025

Cyber Bullying and Internet Safety

Course #: EDKU 9825 Instructor: Hal Kench
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Internet safety and the rise of Cyber bullying are two serious educational concerns that are affecting the school community. The goal of this course is to educate teachers on the issue of internet safety and how teachers may contribute the development of a cyber-smart student as well as promote internet safety through instruction.

January 1st - 28th, 2025

Depression is More Than Sadness: An Epidemic in Our Students Today

Course # EDUU 9805 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Mental illness, social-emotional awareness and our students' overall well-being is part of our classrooms today. Teaching is no longer just reading and writing. In this course, we will equip educators to understand, connect and manage depression. We will see how depression demonstrates itself within varying communities and culture and with different age groups. With the statistics surrounding depression growing each year, relating to & managing this disorder is vital to success in our hallways & classrooms. The course will instruct participants about what defines depression, the various types of depression, the signs and symptoms of depression and what schools & teachers can do to support students. Further, we will study and review common approaches to treating and managing depression - both in and out of school. A full discussion on typical medications and holistic approaches will occur, as well as a focus on communication skills and appropriate terminology to connect and reach families.

Displaced Students and the Educational Impact of Homelessness

Course # EDUU9981 Instructor: Thomas Fabian
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

The number of homeless, or displaced, students has been consistently increasing over the past several years. In fact, in NYC alone, that number has reached a record high where nearly 1 in 10 students have been considered homeless at some point. Understandably, this living situation can have an extreme impact on a child's education. This course will discuss a topical overview of the McKinney-Vento Act as it relates to the classroom, common misconceptions of the definition of homelessness, some of the challenges that displaced students face, tips to communicate with the families of displaced students, and strategies to accommodate for this group's diverse academic needs.

EdTech Tools for Equity

Course # EDUU 9961 Instructor: Kim Turri
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

There is no time like the present for educators to reflect on their role in culturally responsive teaching and use new educational technology tools to build an even stronger school community inclusive of English Language Learners and marginalized students. Students bring rich and diverse backgrounds to the classroom! Technology can be a powerful tool for transforming learning and reinventing our learning approach. It can help affirm and advance relationships between educators and students and remove the barriers to long-standing equity and accessibility gaps.

Opportunities to reflect on digital tools to help adapt learning experiences to meet the needs of English Language Learners, economically disadvantaged, and other groups that have been historically underserved and marginalized will be enhanced. With equity in mind, educators can develop a climate in which students' backgrounds, experiences, and cultures are honored to build a stronger and more diverse learning community. The tools and strategies included specifically address teaching English Language Learners and marginalized students but are suited for all educators teaching grades K 12.

March 1st - 28th, 2025

Effective Classroom Management

Course #EDCU 9006 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

In this course, participants will learn the key role that classroom management has in overall student achievement and success. Participants will review general classroom procedures and discuss methods that may work and not work dependent on student needs and population. Participants will learn to build rapport with students that builds mutual respect within the classroom for the ultimate learning experience. Some practices discussed will be arrangement of classroom, modeling behavior, setting expectations, establishing a routine, student praise and encouragement, and positive interactions. Further, participants will discuss how to appropriately integrate critical consciousness with their students and to have that dialogue within the classroom. Additionally, grouping and instructional practices regarding cultural responsiveness will be discussed as well.

Additionally, the aforementioned practices will also tie into instructional methods and delivery. For example, participants will learn how to give clear and concise instructions to students, use of non-verbal cues, and how to use whole group responsibility for the purpose of using teamwork. Participants will learn how to utilize appropriate time limits with classwork, the use of transitions and time management within the lesson to make for effective management and instruction. Participants will discuss the student-centered classroom and using a variation of delivery methods for instruction. Participants not working within a traditional classroom will focus on how small- group activities and methodologies can be employed outside of the classroom which will also lead to overall student success and how they may contribute to effective management in any classroom.

February 1st - 28th, 2025

Effects of the Mind Body Connection

Course #: EDPD 631 Instructor: Kysten Ellison-Martin
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

The “Mind-Body Connection” has a profound effect on an individual’s learning. The mind-body connection can be explained as the physical and mental connection between our existence and how we perceive the world. Some researchers believe that the mind is a result of electrical activity in the brain. Others believe the mind exists outside of the body and affects the brain, causing the electromagnetic activity that we can observe with technology. This course will focus on various mind-body aspects all through a lens of understanding and promoting culturally responsive practices. The course will address; Contemporary Mind-body Perspectives, the Emotion’s Effect on the body, how the mind and body are functionally inseparable, how thought affects physiology, how to harness the power of positive attitude, unconscious and conscious awareness, responsibility and creative intelligence, core beliefs and seed thoughts, emotion and the body’s language, mental projections and expectations, interpersonal versus intrapersonal communication, body messages, technological feedback, brain- body integration, how the brain and body communicate, the stress response, the relaxation response, the subconscious mind and behavior, how exercise, physical fitness, nutrition, and sleep affect learning, how a healthy body fosters a healthy mind, and how to improve the capacity to learn.

Embracing Diversity

Course # EDDU 9924 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

This course will focus on learning about the global and cultural needs of our students as it relates to education. When participants gain an understanding about these cultures, they can infuse certain teaching practices to help them to become successful learners within the classroom and beyond. With this knowledge, participants will learn how to infuse culturally diverse materials into their classroom curriculum and be able to teach students to value various cultures and beliefs. It is especially important for educators to have a knowledge about other cultures as they are working with these students on a daily basis – the direct student outcome is that they will feel inclusive of the class and be more successful learners as well. Participants will understand how certain customs, family traditions and community aspects can have an affect these students and their education. There will be a focus on teaching culturally and linguistically diverse students and designing specific lessons for this around the current curriculum. This course will also train participants to teach all students to understand and promote diversity. There will be a focus on how we embrace historically marginalized students, evaluate our own bias and create and encourage a brave learning community with our students. This course is also beneficial to all educators that work in the school, not just the traditional classroom, but counselors, psychologists, and those working within the small group and/or alternative settings.

September 1st -28th, 2025

EmoIQ: Enhancing Academic Success through Emotional Intelligence

Course # EDUU 9957 Instructor: Tom Fabian
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

Emotional Intelligence plays a significant role in students' abilities to manage stress, build positive relationships, and effectively manage the challenges of the learning environment. In this course educators will delve into the essential principles of emotional intelligence and it's proven connection to academic success while creating a more equitable and inclusive environment for those from historically marginalized groups. Participants will research and discuss strategies to address and improve upon students' emotional intelligence and create a classroom environment that fosters positive academic outcomes, self-awareness, empathy and inclusivity. Practical tools that help students not only excel academically but also cultivate vital life skills for success beyond the classroom will be developed throughout the course.

Empathy and Equity: A Journey Through Social-Emotional Learning in Diverse Contexts

Course # EDDU 9958 Instructor: Kerri Coudrey
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

This course aims to lay a solid foundation in nurturing empathy and enhancing social-emotional well-being, alongside promoting equitable instructional practices in K-12 classrooms. It prioritizes equity, ensuring that all students, particularly those from historically underserved and marginalized groups, receive a fair and just education. The curriculum delves into creating inclusive environments where both students and educators are encouraged to develop self-awareness and social awareness. It includes techniques for identifying and understanding emotions, their effects on the community, and how these insights can be used to advance equity. The course emphasizes the adoption of strategies that foster acceptance, understanding, and social-emotional learning (SEL) in a manner that addresses and reduces educational disparities. Through interactive discussions and assignments, participants will engage in a dynamic exchange of ideas and SEL strategies, designed to meet the diverse needs of today's educational environments, ensuring every student has the opportunity to thrive.

April 1st - 28th, 2025

August 1st - 28th, 2025

Encouraging Mindfulness into Today's Classroom

Course #: EDUU 9050 Instructor: Danielle Gagnon
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

This course will encourage teachers to use mindfulness techniques to enhance their curriculum. Using mindfulness in the classroom can help meet the challenges of the twenty-first century. Becoming mindful will deepen knowledge and foster an environment in which the school community will become self-aware. More students than we know come to our classrooms with social and emotional deficits, trauma and behaviors that can get in the way of learning. Mindfulness practices enhances learning, helps students to better understand themselves, recognize and identify their emotions, improves their social behavior, promotes healthy development and helps them function more effectively as individuals. If we teach children how to become aware of their feelings, minds and bodies, students will be more apt to show empathy for others, make responsible decisions and develop positive relationships. Through mindfulness, we will lay the foundation for a better way to learn in a culturally responsive and loving context.

December 1st - 28th, 2024
September 1st - 28th, 2025

Endless Opportunities: Crafting a Google App Classroom

Course #: EDUU 9072 Instructor: Christine Knoell
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

Google Apps is what your students have been waiting for! This course will provide the digital tools necessary to prepare students for the jobs of tomorrow. Using these tools, students will develop the 21st-century skills of collaboration, communication, creativity and innovation, critical thinking, and problem-solving. Step by step instructions will guide you through the process of creating and sharing documents and calendars, creating a website and blog, setting up Google groups and Google +, and improving search results for information and images. At the end of this course, you will be able to use Google Apps to create engaging learning experiences for your students. You will find it easy to incorporate Google Apps into your elementary, middle school, or high school curriculum.

January 1st -28th, 2025

Engaging K-12 Learners Through Gamification

Course #: EDPD 672 Instructor: Ed Storck
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

What were some of your favorite games as a child? What made these games so engaging? In this course, participants will learn about gamification and how to utilize game-based strategies in their classrooms. To enrich our discussion and understanding, participants will review research on engagement theory and consider how these techniques can motivate all learners, especially those who have been historically underserved. Together, as a think tank, we will evaluate examples of gamification and brainstorm turnkey activities that you can try with your students the very next day!

January 1st- 28th, 2025

Engaging Family: Strengthening Ties through an Equity Based Approach

Course #: EDUU 9071 Instructor: Kerri Coudrey
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

“Engaging Family: Strengthen Ties through an Equity Based Approach” is a course designed to help educators improve their skills in building strong, supportive relationships with families from diverse cultural backgrounds. This course will focus on using an equity-based approach to family engagement, which involves actively working to eliminate barriers and create opportunities for all families to participate in and benefit from their children’s education and development. Throughout the course, participants will learn about the importance of cultural responsiveness in family engagement, including how to recognize and respect the unique values, beliefs, and practices of different cultural groups. They will also learn how to use a variety of strategies and techniques to effectively communicate with and support families, including through the use of interpreters, home visits, and other forms of outreach to work towards developing a deeper understanding of the complexities of family engagement and gain practical skills for building strong, supportive relationships with families from diverse backgrounds.

December 1st - 28th, 2024
July 1st - 28th, 2025

Growing the Critically Consciousness Classroom

Course #: EDDU 9949 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

In this course participants will be introduced to the concept and theory of Critical Consciousness and how it can be applied to classroom instruction to directly affect student outcome and success. Participants will be encouraged to think about their own perspectives, working within a diverse environment and implementing culturally responsive instruction. The focus of this course will be on how to infuse the mindset of critical consciousness within our students with also infusing cultural responsiveness in our daily instructional practices. Throughout the course, participants will be encouraged to reflect on their own and student's complex identities. This will be done with questioning leading to self-reflection and keen observation of our students and interactions between students and teacher and student. Further, participants will be provided time to reflect upon their own understanding of what it is to be critically consciousness which will help in modeling for students. The key components of both theories will be introduced, discussed and implemented within a variety of instructional techniques and daily classroom interactions that promote and support a brave learning community. Being able to engage diverse student population has a strong and direct effect on student development and varied tolerance. As educators we need to design and implement activities that lessons that encourage students to share multiple perspectives but also feel confident in speaking out against social injustices, thus creating a brave learning community. Using a language of critique in regards to presented information, media presentations and opinions of others.

April 1st - 28th, 2025

Habits of Mind: Elements of Students Success

Course #: EDDU 9161 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

The Habits of Mind course will allow teachers of all content areas, grade levels, and experience to examine the educational philosophy behind habits of mind that have been linked to the optimal success of students. Participants will look at all sixteen successful student behaviors in detail and determine how to promote these behaviors in their classroom practice.

October 1st - 28th, 2024

Instructional Needs of Neurodiverse Students

Course #: EDPD 635 Instructor: Colette Tarantino
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

In embracing such unique attributes as the learning styles, cultures, and family dynamics of students. An exciting and new horizon is the undeniable benefits of also understanding and adapting to students' neurodiversity, a skill all teachers must embrace and flourish. Neurodiversity includes, but may not be limited to, learning disabilities, attention deficit hyperactivity disorder, autism, intellectual disabilities, and emotional and behavioral disorders. Teachers' expertise in understanding how such neurodiversity impacts learning and development of the student can surely ensure a positive environment in which all can thrive in the classroom. This course will focus on the characteristics of the various neurodiversities, strategies for each that can be used to teach and progress students, the benefits of such strategies and exercises for both the neurodiverse and neurotypical students as well as information and discussions on how to support the parents of such students.

September 1st - 28th, 2025

Let's Talk: Integrating Restorative Practices to Strengthen Relationships

Course #: EDUU 9955 Instructor: Valerie Fiano
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

What are restorative practices? It is an emerging social science that studies how to strengthen relationships between individuals as well as develop social connections within families and communities. Restorative practices help to create a trusting environment by giving both students and adults an opportunity to make positive choices and interact respectfully in the home and classroom community.

In this course, participants will learn how to proactively build healthy relationships that helps to develop the community by using affective language, empathic listening, nonverbal affirmations, talking circles, conflict resolution among peers and family members, problem-solving skills, and reintegration circles to name a few. Participants and students alike will learn to reflect upon behaviors and decisions that will affect overall success and relationships among communities.

Literacy: A Fundamental Human Right

Course #: EDPD 677 Instructor: Valerie Capriotti
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

95% of students CAN learn to read when provided with structured literacy instruction based on the body of knowledge known as the “science of reading.” How can educators turn research into practice to ensure that all learners are given the instruction they deserve and make the progress they are capable of?

This course will provide educators with an introduction to the knowledge and tools necessary to make decisions regarding what is working in current literacy instruction and what will need work, in order to provide equitable literacy instruction for all. Educators will gain knowledge of how to assess foundational literacy skills, and plan instruction to prevent reading difficulty and intervene appropriately when students struggle. Literacy is a fundamental civil right, and this course will empower teachers to accelerate student growth by utilizing evidence-based practices to improve student outcomes. Part II of this course will delve more deeply into evidence-based approaches for language comprehension, fluency and writing.

January 1st - 28th, 2025

May 1st - 28th, 2025

Managing the Culturally Responsive Classroom

Course # EDPD 668 Instructor: Valerie Fiano
GRAD THROUGH MANHATTAN UNIVERSITY OR IN-SERVICE

In this course participants will be introduced to the concept and theory of Cultural Responsiveness and how it can be applied to classroom instruction and daily interactions with students, classroom environment, and parents and within the community. Being aware and reflective of this mindset helps to engage all students from a diverse background and experience. The focus of this course will be on how to infuse the mindset of cultural responsiveness within our classroom communities and interactions with students in order to maximize our daily instructional practices for overall student success. The key components will be introduced, discussed and implemented within a variety of instructional techniques and daily classroom interactions. Being able to engage diverse student population has a strong and direct effect on student development and varied tolerance.

Additionally, as the classroom teacher and facilitator we have the responsibility to create a classroom environment along with lesson design that engages students from multiple backgrounds and interests so that we are reaching as many students as possible and integrating topics and language that is of interest to them and that they are also able to relate to personally – it is increasingly important for us to make students aware of the world around them and how they can relate what they are learning to real-life experiences. This course will also train participants to teach all students to understand and promote diversity. Further, participants will discuss how to appropriately integrate cultural responsiveness with their students, adopting the mindset, and to have that dialogue within the classroom. Learning about diversity in different populations allows us to learn different ways to approach, empower and instruct these students. This course is also beneficial to all educators that work in the school, not just the traditional classroom, but counselors, psychologists, and those working within the small group and/or alternative settings.

June 23rd - July 20th, 2025 - No Graduate

Maximizing Strengths and Abilities Supportive Approach for Students with Learning Diversity

Course #: EDUU 9952
Instructor: Carmella Currao-McAleavey
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

“Learning diversity” recognizes that individuals with learning disabilities have unique strengths and abilities, and emphasizes the importance of building on these assets in order to support their learning and development.

The concept of learning diversity acknowledges that there is diversity within the ways that individuals learn, and that this diversity should be valued and supported rather than viewed as a deficit emphasizing the importance of creating inclusive and supportive learning environments that recognize and accommodate the needs of all learners, including those with learning disabilities.

By using an asset-based approach and framing learning disabilities as learning diversity, educators can shift their focus from deficits to strengths, and work to create inclusive and supportive learning environments that empower all students to succeed. This course will also focus on strategies for helping students with learning diversities succeed in the classroom with techniques for differentiating instruction, adapting materials and assessments, and using assistive technology. In addition, there will be continual exploration in which culture can impact learning and considering the unique needs and experiences of students from diverse backgrounds.

Overall, the goal of this course is to provide educators with the knowledge, skills, and strategies they need to support and empower students with learning diversities to reach their full potential.

December 1st - 28th, 2024

July 1st - 28th, 2025

Mental Health in the Classroom

Course #: EDUU 9982 Instructor: Tom Fabian
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

As districts implement the new, mandated, Mental Health law into their curriculum, it is important that classroom teachers understand the components of this education law and possess the necessary knowledge to integrate mental health awareness into their practice. Participants in this course will become familiar with the NYSED Amendments to CR Part 135 regarding Mental Health Education. An overview of mental health and the curriculum will be provided and teachers will attain the skills necessary to develop students' mental health, self-esteem, and well-being in, and out of, the classroom. Attention is focused on how culturally responsive practices and policies work to enable school personnel to address the social, behavioral, and mental health needs of students from diverse cultures. The impact of mental health on social and academic success across various cultures will be analyzed and action plans will be created to develop an educational climate that is inclusive of all students in one's care.

September 1st - 28th, 2024

Positive Discipline: Empowering Educators to Break the School to Prison Pipeline

Course # EDPD 609 Instructor: Daniela Panasci
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

This course will focus on learning about the impact of school discipline in creating the School-to-Prison pipeline and the increased rate of incarceration among at-risk students. In exploring the School-to-Prison pipeline enrollees will learn about the connections between the bias seen in disciplinary action and policy, which according to research is racist and inequitable when reporting offenses and administering disciplinary consequences. This resulting in the classroom to prison pipeline. Through research-based practices participants will learn to recognize examples of bias and acquire methods effectively address behavioral issues in an unbiased, student-centered approach. The direct outcome of this teaching methodology will foster improved teacher-student relationships, school climate, resolution behavioral issues, and ultimately prevent future student offenses by creating a more productive, welcoming learning and teaching environment. This course is also beneficial to all school staff, including counselors, psychologists, security guards, and those working within the small group and/or alternative settings.

November 1st - 28th, 2024

August 1st - 28th, 2025

Reading Strategies for All Teachers

Course #: EDPD 638 Instructor: Jennifer DeCollibus
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

The rigors of the Common Core and now the Next Generation Learning Standards have impacted all teachers regardless of subject area, and one of the most integral parts of this educational overhaul is the undeniable move forward and upward with improving reading abilities and comprehension skills across all areas. Teachers that want to improve and inspire students to be successful readers will benefit from this course. It has been designed to meet the needs of the teacher by examining the Common Core Learning Standards and Next Generation Learning Standards to ensure understanding of the changes that will directly impact instruction, access resources that highlight instructional strategies and ways to select appropriate texts to address the theories and ideas of critical consciousness and cultural responsiveness and how to teach students to use language of critique, allow time for the creation of activities that reflect the needs of a 21st Century learner, the qualities of highly effective reading instruction, choice activities that reflect participants' needs based on the diversity of their own student populations, and formative and summative assessments that are based upon key instructional strategies and tools that should be taught and modeled for students. The modification of reading activities that can be incorporated into many different content areas and grade levels, and the development and sharing of lesson plans that integrate reading strategies and those that are content specific will also be taught and implemented by participants. Those taking this course will also be able to reflect on ways to promote a classroom environment that establishes a culture for reading and increases students' reading "muscles" to ensure that students consistently improve their personal reading skills and continue to learn and grow.

Shifting the Perspective on Poverty: Asset Based Mindset and Strategies

Course # EDPD 678 Instructor: Kerri Coudrey
GRAD THROUGH MANHATTAN UNIV. OR IN-SERVICE

Students in poverty has long been viewed through a deficit perspective, one that immediately eliminates the assets and strengths such students surely have. One in five American children under the age of 18 live in poverty making the effects on students' well-being and academic success vast. As educators, we must delve in to understand it and how to best reach the students by shifting our perspective. Instead of a deficit viewing, this course will show how to shift one's perspective and mindset, connect with students, teach and empower students through an asset-based lens. This course will explore shifting perspectives on poverty to one of deficit to one of asset based and how this shift in mindset will provide a new way to better reach and support students. Awareness, strategies and outreach opportunities educators can put into practice will be provided, assessed and ultimately implemented by those participating in this course. Further, this course will give participants the tools to develop structures and routines to engage students and opportunities to grow.

STEAM Education

Course #: EDDU 9400 Instructor: Liz Scott-Pothier
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Science, Technology, Engineering, Arts, and Mathematical elements all wrapped in one. Join us in learning more about this educational framework created for all disciplines and types of learners. It is an integrative, multi-disciplinary avenue for teaching the inter-relationships of how subjects relate in real-life. By adding the arts element educators will learn new ways to: stimulate and develop the imagination, refine cognitive and creative skills, strengthen problem solving and critical thinking skills, nurture team-building, cultural and alternative perspective values, and develop a sense of craftsmanship and goal setting skills needed in the classroom and beyond.

September 1st - 28th, 2024

Strength through SEL

Course #: EDPD 670 Instructors: Edward Storck
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

This course will empower educators to successfully address the important task of cultivating empathy and social harmony in K-12 classrooms to improve equity within their schools for all learners, including student populations that have been historically underserved and marginalized. Participants will develop and deepen their knowledge, mindsets, and skills necessary to foster an environment in which adults and students display self-awareness and social awareness. In addition, participants will learn how to recognize and identify emotions, their root cause(s), and their impact on the larger community. Discussion and assignments incorporate strategies that can be used to foster acceptance and understanding for diverse individuals and promote social-emotional learning (SEL). Designed as a sort of "think tank," educators will brainstorm and share various SEL activities in the following environments: classroom, remote learning, school, and home and community, so that by the end of the course, educators have access to dozens of turnkey ideas that they can implement the very next day with their students. This course is also beneficial to all educators that work in the school, not just the traditional classroom, but counselors, psychologists, and those working within the small group and/or alternative settings.

February 1st - 28th, 2025

February 10th - March 9th, 2025 - No Graduate

Supporting ELLs Through Cultural, Social, and Educational Transitions

Course #: EDUU 9066 Instructor: Paige Macleod
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

There is a wide spectrum of needs that ELLs have as they immerse themselves into not only a new language, but often, a new culture and educational system. As teachers of ELLs, we have the potential to be a person of guidance and safety for our students. These students have greater stresses and challenges beyond our classroom curriculum and these difficulties can frequently be divided into the categories of cultural, social, and educational. Once we understand the common issues they may face, we will know the signs to look for and, more importantly, what strategies and resources we can provide them with.

Through the lens of culturally responsive practices and growing our own critical consciousness, participants will gain an understanding of common stressors that ELL students face beyond our classroom and will share different strategies and resources to implement into their own practice.

January 1st - 28th, 2025

Supporting and Empowering the LGBTQ+ Student: Using SEL to Create Community

Course #: EDUU 9049 Instructor: Jonathan Chiaramonte
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

An educator's classroom includes a diverse group of pupils, which will consist of LGBTQ+ students. Families of LGBTQ+ students expect and deserve a fair and safe learning environment for their children to learn. Educators know that in order for meaningful learning to take place, all students must feel safe and supported in the school community. This is especially true for students who identify as lesbian, gay, bisexual, or transgender, or are questioning their sexuality. Statewide legislation such as DASA and provisions under the federal law, Title IX do protect LGBTQ+ pupils, however, the true impact begins from a compassionate and informed educators that embrace SEL and cultivate brave learning spaces. As an advocate, an educator renders a tremendous difference on students who are struggling with their identities. Ultimately this course will inform educators on the diverse and powerful perspectives, experiences, struggles and needs of our LGBTQ+ students in our care as well as how to work with parents, administrators, support staff and LGBTQ+ students to promote a safe, respectful learning environment. Further, participants will discuss how to appropriately integrate critical consciousness with their students and to have that dialogue within the classroom.

September 1st - 28th, 2025

Supporting Students with ADHD

Course #: EDNU 9043 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

This course delves into the many aspects of ADHD; history, theory and brain research, diagnosis, symptoms, medical treatments, behavioral modifications and classroom suggestions. Students have the opportunity to individual classroom philosophies/manuals, which detail ADHD accommodations across multi-leveled curriculum settings.

Supporting Students in Crisis

Course #: EDCU 9029 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

A number of students today enter our classrooms in crisis, and this crisis affects academic performance. This class will delve into the different issues students may be dealing with on a day-to-day basis and discuss the role of the classroom teacher in supporting students with specific problems. Issues that will be covered include death of a parent or loved-one, sibling rivalry, divorce or remarriage, a parent's loss of employment, moving to a different school district, and other pertinent issues.

Teacher Rescue:

Preventing and Reversing Burnout

Course # EDPD 624 Instructor: Cathy Carella-Dean
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

The role of an educator has increasingly become more and more demanding. In addition to being content specialists, or service providers, educators find that their roles encompass so much more than delivering instruction and/or services. Educators' daily work includes elements of counseling, caregiving, mentoring, mediating, coaching, and so much more. Over time, these demands can lead educators to feel "burnt out." This course will give participants the tools to recognize what teacher burn out is and how it negatively impacts teacher and student outcomes. Participants will go beyond identifying issues and will analyze research-based strategies, techniques, and actions to help prevent or reverse burn out. Educators will learn about the positive and invigorating effects of participating in PLCs, PDs, stress management activities, reflections, and leadership opportunities. Educators will discuss and analyze research-based, best practices that improve instructional strategies and collaborative approaches to student learning. Educators will examine their underlying personal beliefs, norms, practices, and assumptions, and reflect on how a student's race or culture may have influenced school culture. Educators identify they will implement to meet the needs of their students with a careful eye to how cultural responsiveness works to achieve this. Educators will synthesize fresh lesson plans and faculty presentations that improve student outcomes, and serve to prevent and reverse teacher burnout.

July 1st - 28th, 2025

Teaching Media Literacy

Course #: EDUU 9953 Instructor: Liz Scott-Pothier
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Standing between kids and the onslaught of fake news is the educator. Many of today's media outlets are filled with cleverly delivered and phrased misinformation making it dire for students to be critical thinkers in order to be able to spot that misinformation. This course will assist teachers in developing specific content-based lessons that will empower students to apply the strategies and analysis skills necessary in order to recognize real, hard fact based and credible information and dismiss the phonies.

May 1st - 28th, 2025

The Autism Spectrum and Today's Classroom

Course #: EDPD 605 Instructor: Colette Tarantino
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

Teaching students on the Autism Spectrum presents many challenges for teachers. A clear understanding of these challenges is essential, especially when these students are mainstreamed into the regular education settings. This class will thoroughly review the traits of the brain disorder in K-12 children, its origins, and discuss the environmental and social considerations that need to be made in the educational setting. Teachers will be given an overview of autistic characteristics, importance of the parent-teacher relationship, and successful classroom methodologies used in the mainstream classroom. Culturally responsive practices and equity will be woven into the class in order to strengthen the support our students receive in the way of strategies, cultural strengths, success, open-mindedness and a supportive learning environment.

April 1st - 28th, 2025

The Dyslexic Mind

Course #: EDPD 659 Instructor: Valerie Capriotti
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

Dyslexia impacts an estimated one in five students. This course will allow educators to develop an accurate understanding of dyslexia, so that they can work to dispel myths and advocate for proper supports for students, both in their classrooms and larger school communities. This course will address the current inequities in education faced by students with dyslexia. We will discuss the current state of dyslexia identification and support in our schools and explore ways to develop more equitable practices for students with dyslexia. We will consider how race, language and socioeconomic factors can impact proper identification and support. Educators will explore and discuss how structured literacy instruction along with Universal Design for Learning practices can create greater learning equity and accessibility for all learners with dyslexia.

September 1st - 28th, 2025

The Good & Bad of Social Media: Function, Psychology & Usefulness of Social Media in our Students & Classrooms Today

Course #: EDKU 9689 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Today's standards place a heavy emphasis on the various types of technology in the classroom. This course focuses on the social, physical and academic impact of social media on our students, their well-being and their learning. We will analyze and evaluate the role of social media today and its impact on teens in order to discover ways to link popular medias and apps with both academic and personal success. The course will study both the positive and negative roles social media plays in kids' lives, as well as educate Participants on how to utilize this type of technology in our classrooms to foster meaningful learning. Through the lens of culturally responsive practices and growing our own critical consciousness, participants will learn about methods to support and strengthen the success of all students and their unique and diverse backgrounds. Specifically, we will read about incorporating Common Core standards while teaching with social media. In addition to strategies and technology that supports both participants and students, a timely and valuable benefit of this course will help educate and better protect students on the dangers of social media while focusing on the positive connections to their education. Further, participants will discuss how to appropriately integrate critical consciousness with their students and to have that dialogue within the classroom. Additionally, grouping and instructional practices regarding cultural responsiveness will be discussed as well.

July 1st - 28th, 2025

The Peaceful Classroom and Easing Student Anxiety and Stress

Course #: EDUU 9048
Instructor: Kysten Elliston-Martin
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

The class will address the stress and anxiety students contend with on a daily basis by examining the causes and learning ways to help alleviate such within the classroom. By becoming more aware and versed in strategies of social emotional learning and practices through the lens of culturally responsive practices that embrace and reflect the many identities and experiences of the students in their care, educators will learn to support their students and lessen the stress and anxiety often felt by them. How the recent pandemic has changed student motivation and behavior and what to do in order to meet their unique and diverse interests will be included in this timely course as well. In all, this course will cultivate an awareness and provide resources and strategies to employ in creating a peaceful classroom that works to reduce stress and anxiety of students with the goal of developing equitable practices for the students in one's care, notably for those marginalized populations.

July 1st - 28th, 2025

The Self Driven Learner and Motivational Strategies

Course #: EDPD 636 Instructor: Valerie Fiano
GRAD THROUGH MANHATTAN UNIVERSITY
OR IN-SERVICE

Explore various research-based motivational theories in regards on how to motivate students through instruction and classroom management. There will be an emphasis on intrinsic and extrinsic motivational factors and how this can be applied to the classroom setting. Intrinsic motivators will also include giving students opportunities to make personal connections to curriculum while opening up dialect in the classroom to allow for multiple perspectives. Learn how to incorporate role-models and peer-models into classroom activities. Also learn how to promote a culture of learning by taking on supportive/coaching roles within a traditional classroom setting. Concepts learned in this course will enable participants to meet the rigor of the Common Core Learning Standards and motivate their students to excel with academic goals. Students learning how to self-monitor and reflect upon their own motivation will be modeled and encouraged. Learn how to craft and deliver student-centered lessons that involves the students more in their own learning and teaching them how to reflect upon what they have learned and how they can improve. Developing a heightened knowledge of cultural responsiveness will help participants to explore ways to implore and motivate students to participate in a brave learning community, combat societal norms, recognize the underserved and marginalized social groups, while giving students a voice in the classroom to become leaders of cultural change.

September 1st - 28th, 2024

The Tween & Teenager's Mind Being an Educator with Kids Today

Course # EDUU 9991 Instructor: Allison Jahn
GRAD THROUGH UMASS GLOBAL OR IN-SERVICE

Our middle school and high school students today are raised in a culture different than what many of us were raised in. The result is a generation of 'Gen Z' kids who have a different mindset. This course will dive into what it means to be Gen Z, how that impacts relationships, education and life outlook. This course will look at the factors that impact these tweens and teens such as economics, different types of households, social media, etc. We will study the biology of the developing teen mind and the stages of development to further understand the behaviors we see in our classrooms. Comparing 'nature vs. nurture' and using strategies like Mindfulness and quality classroom practices will enhance student relationships and promote a positive environment that prompts learning and social-emotional development is our goal.

September 1st - 28th, 2024

Unlocking Student Potential with AI

Course # EDUU 9951 Instructor: Kim Turri
GRAD THROUGH UMASS GLOBAL
OR IN-SERVICE

In the ever-evolving world of education, it's imperative for educators to embrace Artificial Intelligence (AI) effectively. Our all-encompassing course empowers educators with hands-on strategies for seamless AI integration into teaching. Participants will explore AI's potential to enhance education, promote inclusivity, and cater to diverse learners through readings, discussions, activities, and assignments. Gain a deep understanding of how AI aids language acquisition, navigate potential biases, and evaluate the pros and cons of its educational incorporation. Equip yourself to navigate the AI-driven educational landscape confidently, fostering enriched learning experiences for both educators and students alike.

Coaching Courses

NYS Accredited Online Coaching Courses

For questions regarding enrollment of sports specific sections 6-9, please contact us at kristina@lillieonline.com

According to the mandates of the state education department, teachers who are not certified in the area of physical education are required to complete Theory & Techniques of Coaching and Health Sciences Applied to Coaching within 3 years of his/her employment as a coach at the secondary level. Philosophy, Principles and Organization of Athletics in Education must be completed within the first 2 years of employment as a coach.

New Graduate Option with Manhattan University \$595.00

The coaching courses may now be taken as graduate courses by employed public schools teachers as a professional development option. Please note that these graduate courses cover the NYSED coaching requirement for non PE teachers wishing to coach, but are NOT affiliated with a Manhattan University degree program.

The Theory & Techniques of Coaching

Course: EDPD 650 Instructor: Paul Pedersen

This course will delve into the theories and techniques associated with coaching athletics at the secondary level. Topics will include the history of high school athletics in New York state, state and local regulations and procedures, planning, scouting, strategies, safety, officials and guidelines for working with them, the preseason, season and postseason, management, motivation, and instruction on various secondary level sports. **Please note:** it is highly suggested that participants take this course during or the same season of the sport in which they will or do coach.

November 1st - 28th, 2024
